

# Tyne Rivers Trust

Tyne Rivers Trust will be delivering a river-clean up along the River Ouseburn which flows through Newcastle Great Park, on **19<sup>th</sup> May 2021**. Due to covid restrictions, this is limited to TRT registered volunteers in order to keep group sizes under control. Once restrictions have eased, TRT hope to deliver more work in the area and would love for local residents to get involved.

Tyne Rivers Trust is the only environmental charity dedicated to improving the River Tyne and its tributaries. The work that we do is vital to tackle the effects of climate change and support the wildlife and landscape of the Tyne rivers. We want a better river, a better region and a better life for all. Volunteering is a great way to spend time outdoors, meet new people and is vital to help us improve habitat and make the river a better place to be.

Volunteering with TRT can range from flexible monitoring of rivers and streams to practical conservation tasks such as litter picking, tree planting and invasive species control.

If you'd be interested in getting involved, TRT would love to hear from you – get in touch with their Volunteer Coordinator, Jenny Elliott, for more information – [j.elliott@tyneriverstrust.org](mailto:j.elliott@tyneriverstrust.org)
