A1 Scotswood to North Brunton Overnight Closures

Friday 25 June to Friday 9 July

Approximate hours: 8pm to 6am

The A1 Scotswood to North Brunton Major Project team would like to keep you informed of up and coming overnight closures along the A1 which will be carried out this month (June).

Completed in May:

Throughout May we have been working on both the northbound and southbound verges between J77-79 with our earthworks and drainage teams. We have been removing existing drainage runs and installing new along the length of the carriageway.

South of J77, we have been continuing our work in the central reservation to install the new concrete safety barrier and grouting existing mine workings.

We have also completed a number of cross-carriageway crossings to enable ducting and street lighting cable to be installed along the length of the concrete safety barrier, which will feed our new street lighting columns.

Coming up in June:

In the northern section, between J77-79, our teams will continue with drainage and earthworks along both the northbound and southbound verges. We will also begin installing the new street lighting columns along the length of the concrete barrier.

In the southern section, between J77-74, we will continue install the concrete barrier in the central reservation, complete our grouting works and begin removing the temporary barrier and place it in the verge. We will then establish our verge closures in the southern section and begin site clearance works along each verge.

Please be aware that our planned closures up until the 9 July (outline below) could be subject to change due to adverse weather or other unforeseen circumstances.

If you have any queries or concerns regarding the A1 Scotswood to North Brunton scheme, email the team at A1S2NB@rdpnorth.co.uk or you can alternatively visit our dedicated webpage to the project: <https://highwaysengland.co.uk/our-work/yorkshire-and-north-east/a1-scotswood-to-north-brunton/>
