A1 Scotswood to North Brunton Overnight Closures

December 2021

Approximate hours: 8pm to 6am

The A1 Scotswood to North Brunton Major Project team would like to keep you informed of the progress on the scheme and the overnight closures along the A1 which will be carried out throughout the month of December.

Completed in November

In November we continued our drainage and earthworks to the verges throughout the length of the scheme. The soil nailing works have been focused around J77, following completion of the J76 slip roads. Teams have also been installing new safety barrier and kerbs in the southern section between J75-74.

On nightshift we have been installing new safety barrier, installing cross carriageway drainage, resurfacing the carriageway and removing temporary barrier wherever we can.

Coming up in December

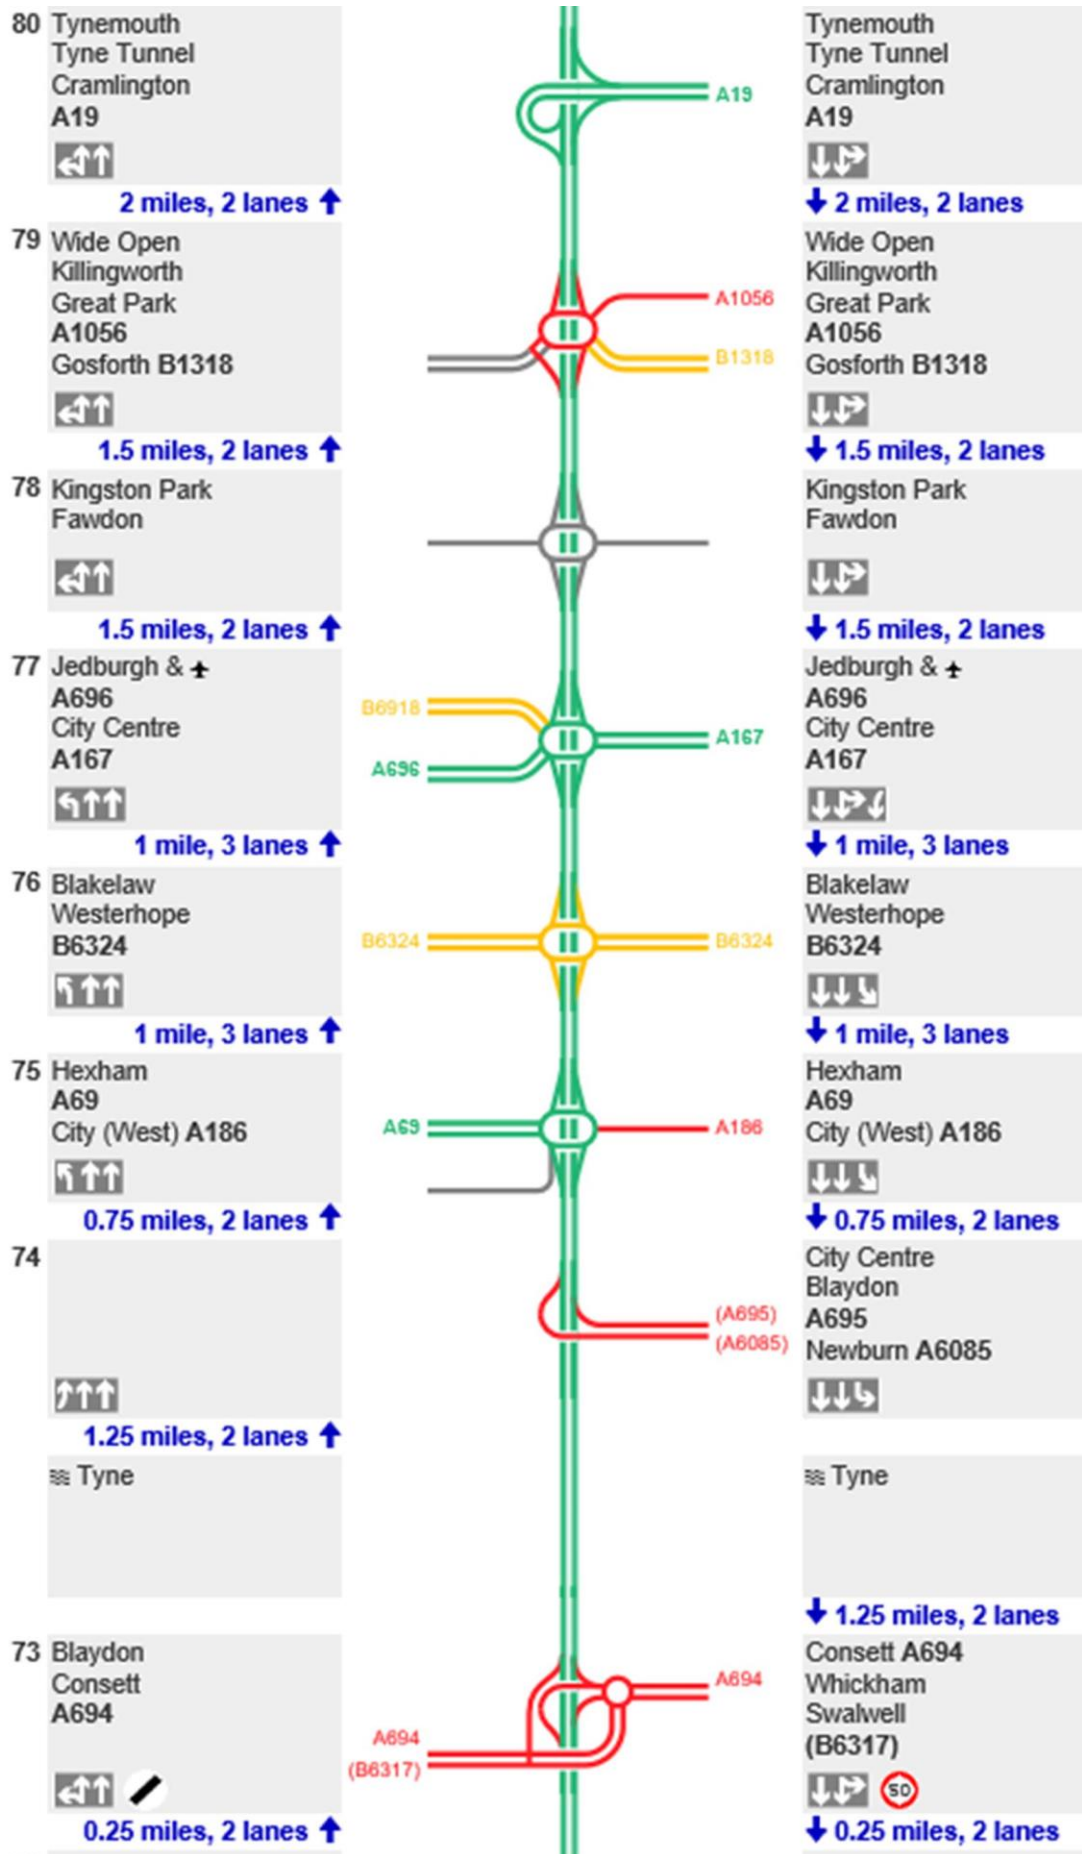

Through the month of December, the earthworks and drainage work in the verges will continue along the full length of the project. We will also continue soil nailing to retained slopes at J77 and increase resources in this area to accelerate the works. On nightshift, we will continue installing cross carriageway drainage, resurfacing of the carriageway, removal of more temporary barrier and installing our new surface water channel.

Please be aware that our planned closures throughout December could be subject to change due to adverse weather or other unforeseen circumstances.
