A1 Scotswood Overnight Closures

Friday 7 January to Sunday 30 January

Approximate hours 20:00hrs to 06:00hrs

Completed in December.

In December we continued our drainage installations and earthworks to the verges throughout the length of the scheme on dayshift. The soil nailing works have been progressing in J77 verges, both northbound and southbound. We have commenced our crib wall retaining structure works in the month also.

On nightshift we have been installing new safety barrier, installing cross carriageway drainage, installing the new surface water channel, and resurfacing the carriageway.

Coming up in January.

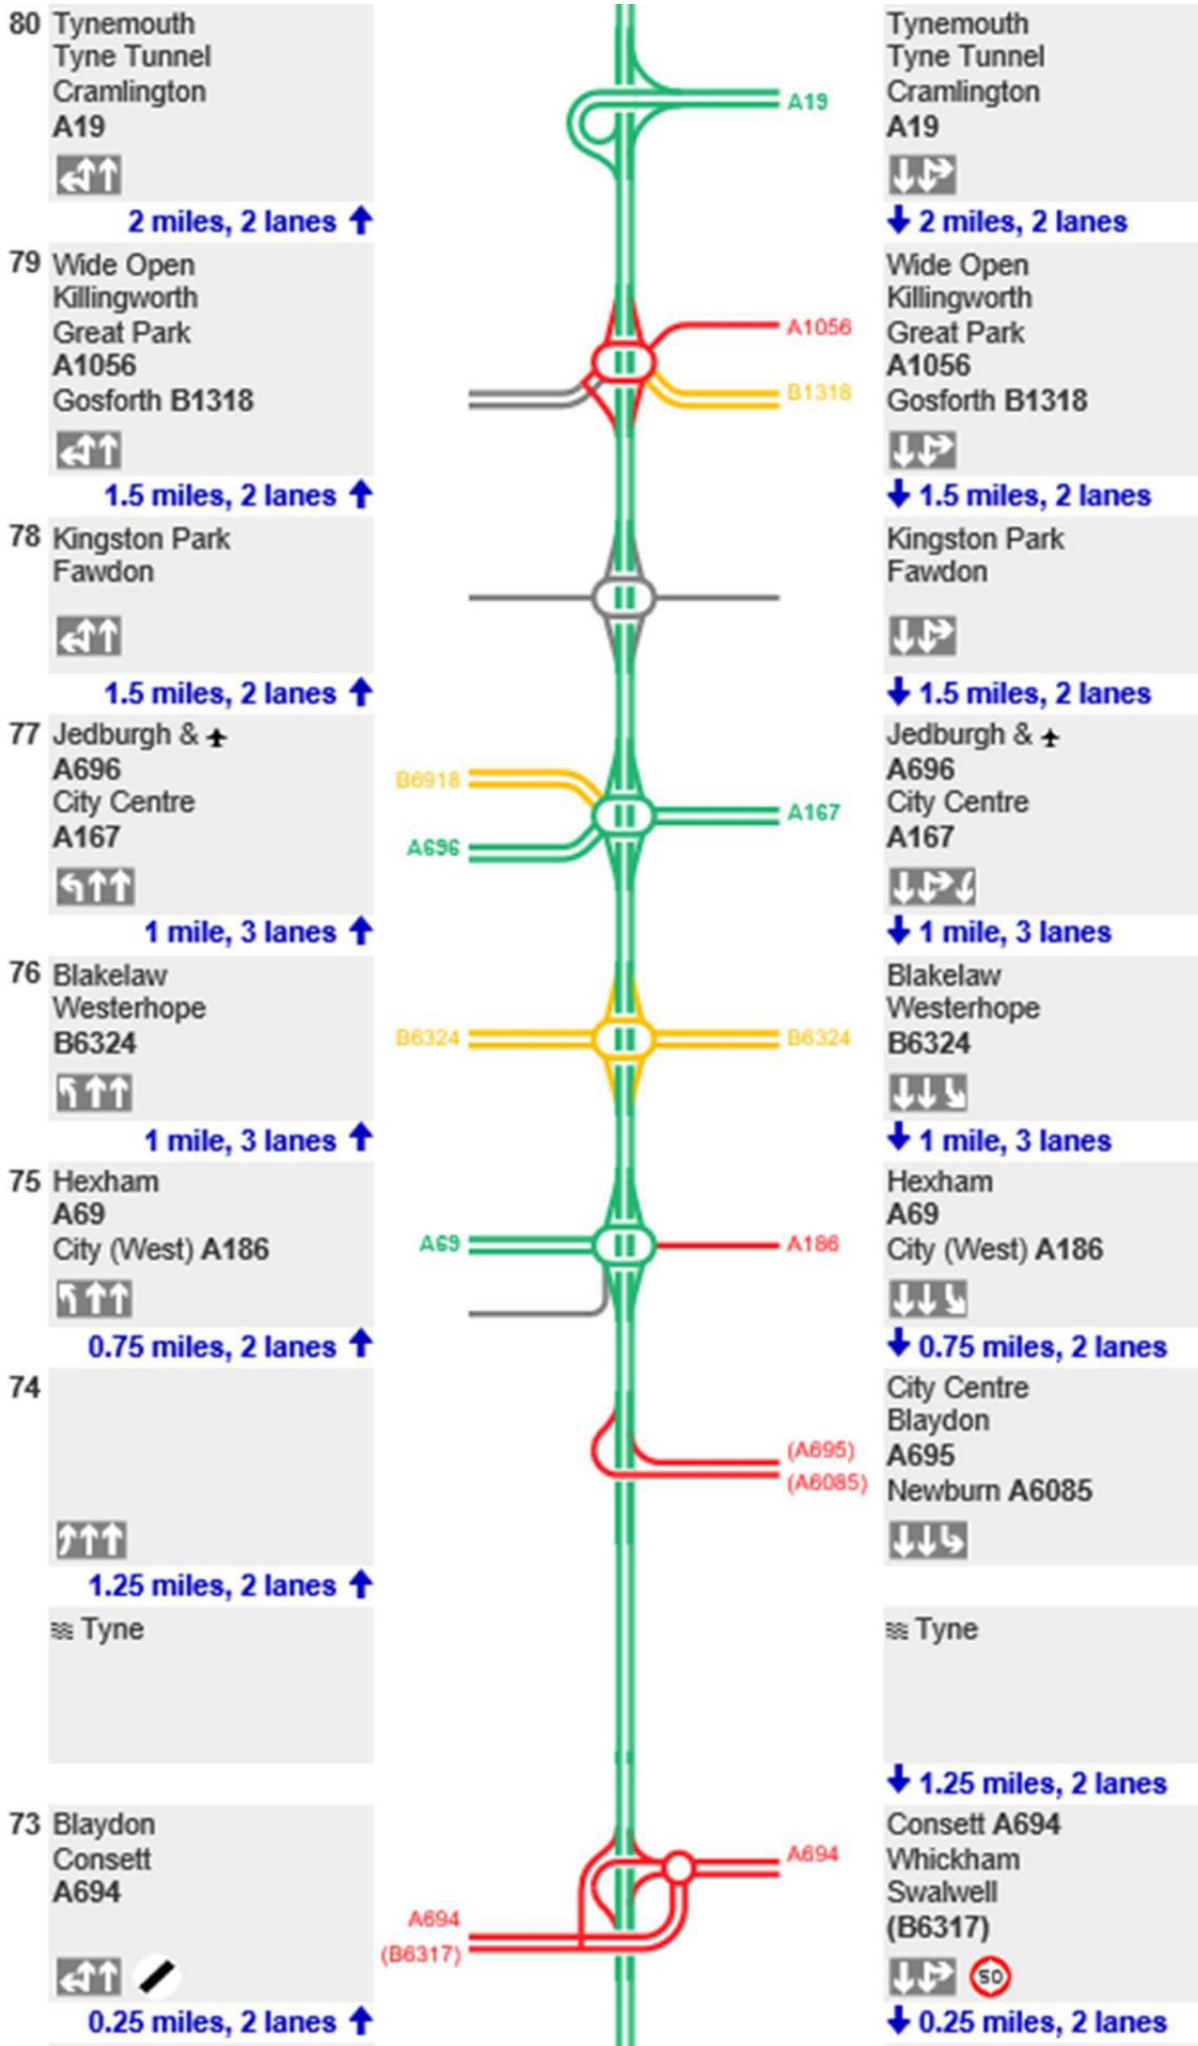

Through the month of January, the earthworks and drainage work in the verges will continue along the full length of the project. We will also continue soil nailing to retained slopes at J77 and constructing our new crib retaining walls around site.

On nightshift, we will continue installing cross carriageway drainage, installing more street lighting columns in the verge, laying the new surface water channel and resurfacing the carriageway widening.

You can also use the following social media accounts to keep up to date with scheme progress, and for the latest closure information, please follow us on Twitter @HighwaysNEAST or check out [our Facebook page](#).

If you have any queries or concerns regarding the A1 Scotswood to North Brunton scheme, you can also email the scheme inbox A1S2NB@rdpnorth.co.uk

Planned closures on A1.- these closures between Friday 7 January and Sunday 30 January could be subject to change due to adverse weather or other unforeseen circumstances.

This is the latest National Highways campaign that is currently live. It is vital information about red x signs and what they mean. Please use the link below to see more information.
