A1 Scotswood Overnight Closures

Friday 29 April to Friday 27 May

Approximate hours 20:00hrs to 06:00hrs

Completed in April

In April, we completed all deep drainage and earthworks to the verges throughout the length of the scheme on dayshift. All crib walls have been completed and we have started permanent fencing to the top of these. We have also progressed verge finishing works and placement of concrete to narrow widening in verges.

On nightshift we have been installing new runs of surface water channel, drainage kerbs and permanent barrier, surfacing of the existing carriageway and widening sections, installing new traffic sign foundations/posts and laying new drainage kerbs. We have also been probing for mine shafts throughout the length of the scheme.

Coming up in May

In May, we will continue with surface water channelling and drainage kerb installations, as well as permanent barrier runs. This will allow us to remove a lot more existing barrier and continue surfacing to the widening sections and existing carriageway. We will also start erecting a lot of our new sign plates, including the overhead sign gantries.

As we continue to push for completion there will be a large amount of work being delivered on nightshift under full closures.

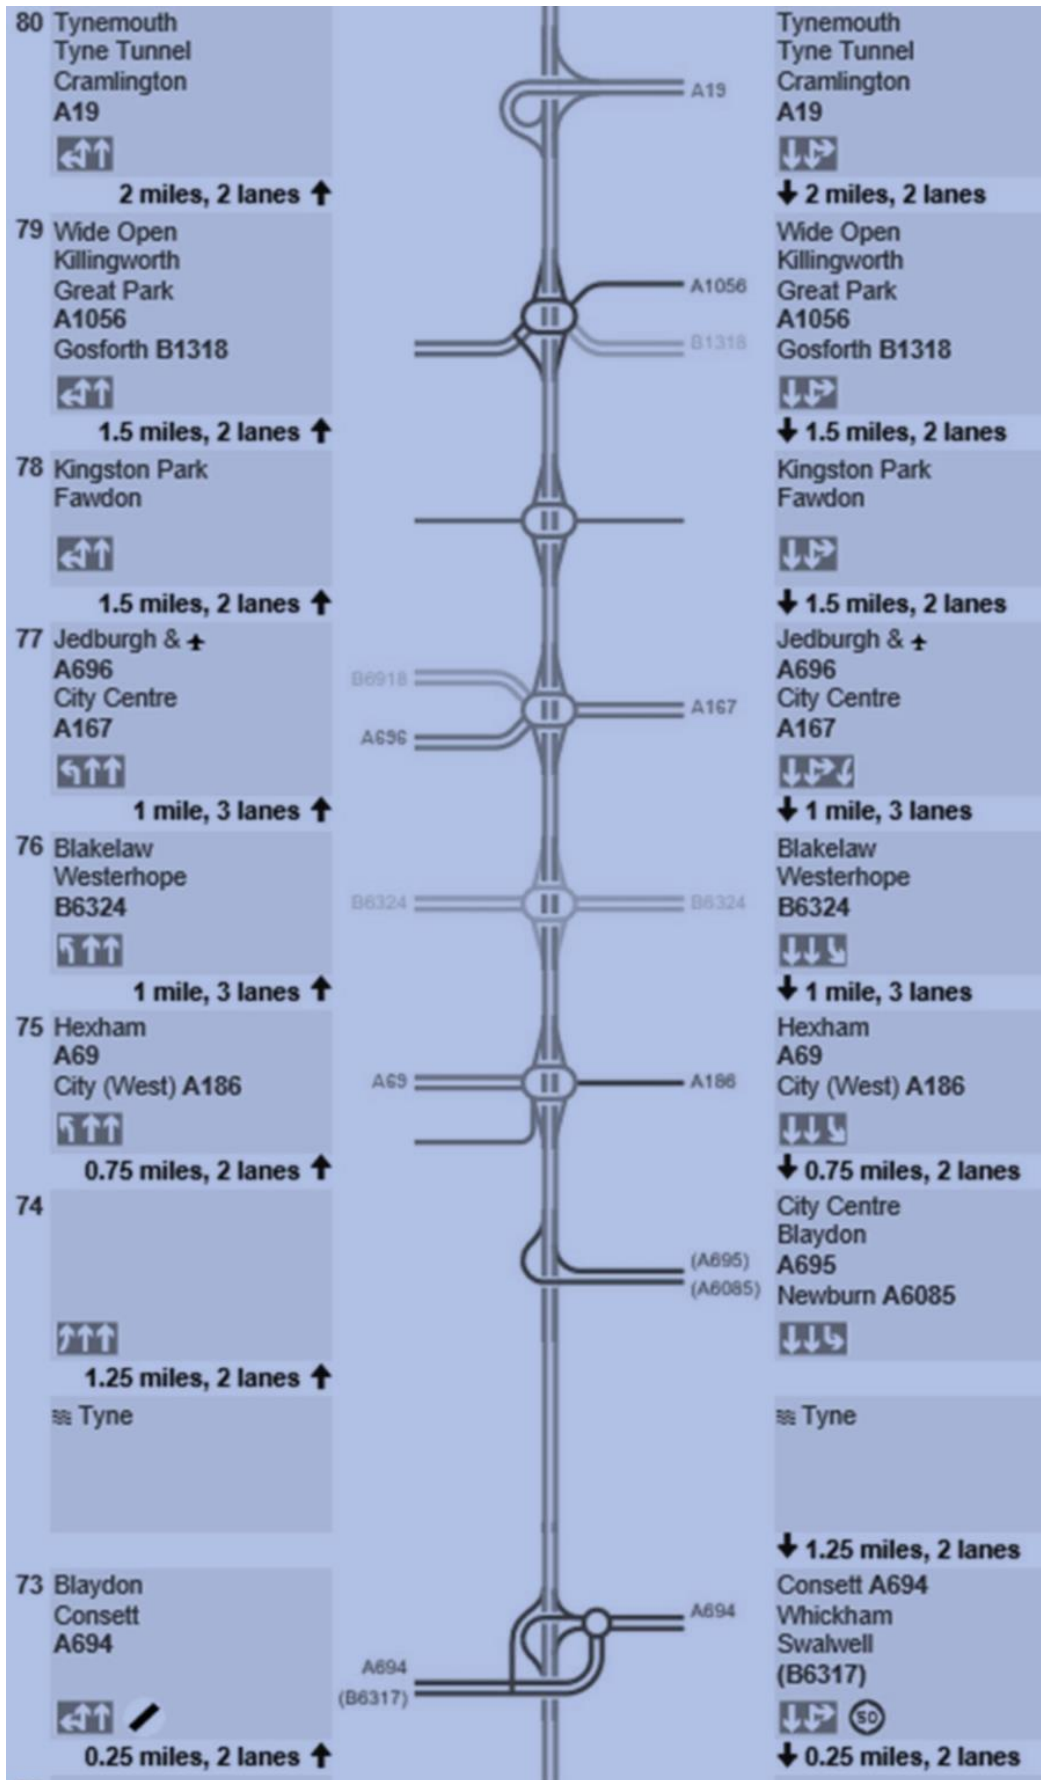

SUDS Pond

Works at the SUDS pond are nearing completion, with all earthworks now complete and drainage due to be complete early May. The permanent fencing works have commenced, and we will aim to reinstate the footpath around the pond and have it re-opened to the public in May.

You can also use the following social media accounts to keep up to date with scheme progress, and for the latest closure information, please follow us on Twitter @HighwaysNEAST or check out [our Facebook page](#).

If you have any queries or concerns regarding the A1 Scotswood to North Brunton scheme, you can also email the scheme inbox A1S2NB@rdpnorth.co.uk

Please be aware that our planned closures up until the 27 May (outline below) could be subject to change due to adverse weather or other unforeseen circumstances. There are clearly signed diversions in place for the closures.
