

# Morrison's Newcastle Great Park

Hello,

We are RG Group and we have been appointed to build the new store on Brunton Drive. RG Group are a Construction, Fit-out and Refurbishment company based in the UK with offices in Kent, London and Doncaster and have carried out retail work for over 30 years.

Following on from consortium clearing the site we have started works as you may have seen. We are currently civilizing the ground, which means stoning the site up to levels, installing drainage and installing the foundations for the steel frame of the building. We have just started the steel frame.

Our next planned works will be to install the roof and cladding of the building. This is an insulated panel fixed to the frame. This will provide the building with good thermal properties. We will also be completing the retaining walls adjacent to the roads.

We will continue to provide updates but if anyone wishes to comment on or discuss the project with us please contact the project manager by email [neil.haire@rg-group.co.uk](mailto:neil.haire@rg-group.co.uk).
